PACIFIC HARDWARE CO.
HONOLULU.

**Plantation
Supplies.**

Correspondence Solicited.

The Pacific Hardware Co.

[LIMITED],

Have added largely to their stock of goods, and by judicious purchases in the future hope to be able to carry a supply which will enable them to fill the orders of their customers with the latest and best of everything in their line at reasonable prices.

THE CYCLONE WINDMILLS,

introduced ten years ago, have proved more satisfactory than any others. Cyclone Mills which have been in use from eight to ten years are to-day doing efficient work without needing repairs, while mills of other makes have gone to pieces in less than half that time.

The Pumping Mills

especially commend themselves to Ranchmen for mills erected at great distances from their place of residence, as they are self-regulating and will

take care of themselves in the strongest winds.

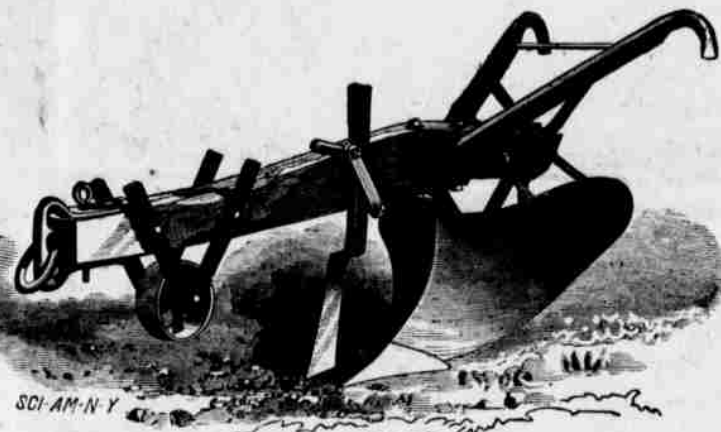

A thirty foot Geared Cyclone Mill at Pearl City has been in use six years, raises water eighty feet, through half a mile of pipe. In a moderate breeze the average amount of water raised is 5,500 gallons per hour. It is left to run by itself day and night without attendance.

Orders have lately been received for four Pumping Mills and three twenty-four feet Geared Mills from parties who had tried other mills.

AGENTS FOR

Deere & Co.'s Plows.

These Plows are preferred to any that have been introduced into this country. An invoice has just been received, and another is on the way.

'Dillingham'

Rice Plows, 5 to 12 in.

Breakers, 12 to 14 in.

Double Furrow.

Secretary Disc Plows.

Delta Breakers, etc., etc.

VACUUM OILS

(THE STANDARD OF MERIT) are made in Rochester, New York, and are supplied in original Packages. Persons who try other Oils after using the Vacuum almost invariably return to the latter, because they do the best work and are always the same.

Hygenic Refrigerators.

Radically different from all other makes. No taints. No odors. Removable steel compartments entirely separated one from the other. Water sealed trap. Perfectly insulated walls, and other unique features.

UNIVERSAL STOVES AND RANGES "are the best in the universe."

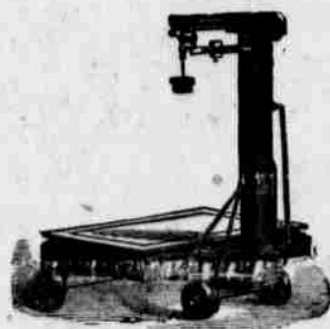

PRICE: \$60 to \$85.

The superior arrangement, the fine castings, durability, economy of fuel and other advantages make the name "Universal" an absolute guarantee of merit. Every plate is warranted.
